

Work **VIRTUALLY** anywhere...

Work anywhere, **VIRTUALLY!**[™]

VOS[™] - Benefit for Academic Institutions

VOS[™] provides the technology resources that relieve academic institutions of the burden of maintaining server hardware. VOS[™] services in conjunction with special academic licensing by Microsoft[®] allows academic institutions to offer students and faculty access to current versions of Microsoft[®] programs while avoiding the costs related to building and maintaining data centers. The VOS[™] solution goes way beyond special pricing on Microsoft[®] software. VOS[™] is a *completely different model* for delivering technology. Boards and donors readily embrace VOS[™] because it offers a long term technology strategy that aligns with the mission of the institution.

Primary Decision Drivers:

- ❖ **Mission** – Provide an exceptional learning environment and make it accessible to as many people as possible.
- ❖ **Finance** – Regardless of how well funded an organization may be, donors and directors want to spend money where it does the most to support their mission.

VOS[™] provides software like Microsoft[®] Word, Microsoft[®] Excel, Microsoft[®] Outlook email with Microsoft[®] Exchange Server, and other programs directly through a secure website. VOS[™] services can be accessed from nearly any computer with Internet connectivity. The low monthly fee for service preserves a significant amount of money that can be directed to other, more important purposes that support the mission of the organization!

- Work from nearly any computer with Internet access
- Free upgrades on Microsoft[®] Office programs
- Daily Backup of your programs and data
- Consistent speed and responsiveness
- Predictable monthly service fee
- Secure data storage
- 24 x 7 support line
- and MORE!!!
