Work anywhere, **VIRTUALLY!**[™]

VOS[™] - Computer Service for Attorneys & Law Firms

VOS[™] delivers the security and mobility that is critical for skilled professionals frequently on the move. Scheduling, team collaboration, and prompt access to information have a direct impact on the success of a firm. VOS[™] has the infrastructure to effectively meet the technology demands of the legal profession today and into the future.

VOS[™] allows secure access to time & billing programs, file management, document sharing and other programs from nearly any computer with Internet access. VOS[™] also supports wireless synchronization of email, calendar, contacts and tasks with Blackberry[®], Smartphones and other wireless systems providing one of the most comprehensive, integrated solutions available on the market today.

Primary Decision Drivers:

- ❖ **Finance** – Building and maintaining technology infrastructure is not in line with the business strategy of attorneys and law firms. No need to buy or upgrade servers!
- ❖ **Mobility** – Be productive wherever/whenever. Establish remote offices, complete mergers or create temporary engagements with subject matter experts without buying expensive equipment or building complex networks.

VOS[™] provides software like Microsoft[®] Word, Microsoft[®] Excel, Microsoft[®] Outlook email with Microsoft[®] Exchange Server, and other business programs directly through a secure website. The low monthly fee for service preserves a significant amount of money that can be directed to other, more important purposes that support business development!

- Work from nearly any computer with Internet access
- Free upgrades on Microsoft[®] Office programs
- Daily Backup of your programs and data
- Consistent speed and responsiveness
- Predictable monthly service fee
- Secure data storage
- 24 x 7 support line
- and MORE!!!
