# VOS – Pay as You Grow

*Updated February 2009*

Why spend money on a server when VOS™ offers greater benefits at a monthly fee that is a fraction of the cost? Or, if your business has not been able to justify the cost of a server, you can now access VOS™ resources with the security and capacity you need, but with the flexibility to add more people, home offices or connect remote sites by simply adding VOS™ accounts at a low monthly per-user per-service fee.

Today there is a new way to run your business network, and it's not what you may think. VOS™ is the premier online service provider of Microsoft® Office, Microsoft® Exchange email with Microsoft® Outlook, popular accounting software, and other industry leading software programs. The low monthly cost for VOS™ services provides the same resources to the client as if they had a full-scale server and an employee dedicated to support and maintenance of technology. VOS™ takes care of the technology so the client can focus on *their* business and *their* clients!

So you can have current software running at peak performance, with data protection, mobility, remote access supported by IT professionals- without a large spend of precious capital! Add users, programs, email accounts, storage, and other services when you need them!

VOS™ offers a unique solution- one that you have probably never seen before. Find out why there is so much interest in VOS™ services. Contact Sales and schedule a demo to see the difference and learn more about the VOS™ array of business solutions!
